PROFILE

Developer with professional hands-on experience in Frontend (2+ years) and QA automated testing (1 year), team-based projects, and freelance work delivering real-world solutions. Skilled in communication, organization, and problem-solving, I am eager to grow professionally, learn from experienced teams, and contribute meaningfully to innovative projects.

EXPERIENCE

Junior Automation QA (at Nugios Tech)

2025 Aug - Present

Automation QA testing engineer. Delivered testing using Reqnroll/Specflow on multiple projects across multiple teams. Mainly tested API services that the company worked with as well as UI testing on several projects.

Frontend Developer (Part-time at Kutaisi International University)

2025 Dec - 2026 June

Mainly worked on admin page of the website as well as almost full refactoring of the code structure/quality.

FullStack Developer (EvCarCharger - Freelance)

2024 Dec - 2025 July

FullStack Developer, mainly focusing on frontend and utilizing supabase. Authored payment system and email notification system.

STA for Scripting Languages subject

2024 Jan - 2024 July

- Mentored students in learning front-end technologies. We mainly covered html, css, javascript and React fundamentals.

Mentor at Lopus Electronics (Frontend)

2023 Aug - 2023 Oct
